iron and steel industry

Eisen- und Stahlindustrie

With us you will always have an iron in the fire

We combine best practice with competent ideas and create like this, new solutions. Our competent team of engineers, technician and fitters develop, design and manufacture together with you, exact products in the field of steel industry.

Our areas of application

- Hydraulic power units
- Bolt tensioning devices
- Hydraulic nuts
- Spring clamping cylinder
- Mechanical bolt tensioning devices - Hydraulic over load valve
- Hydraulic straightening shaft lock
- Hydraulic assembly
- Trainings on secure handling of hydraulic bolting tools
- Tools check by BG/BGV/BGR guidelines and DIN standards
- Tools rental

Product examples

Bolt tensioning device

Hydraulic nut

Hydraulic straightening shaft lock

Clamping cylinder

Special cylinder

Power unit

Hydraulic over load valve

Retrector/Puller

Mechanical clamping nut
